# PARAPLUIE TABLE

Parapluie Side-Table

## Description /

Parapluie Table - The small parapluie tables enriches the interior with its love of the detail. Its design grapples with the tension between object-nature and context-expectation, the sublime 'releasement' of the trick. The impression of the fragile handle, like it could collapse every second, reminds us of the transience of the objects we know - the objects that made the modern world work. Playing with these impressions, the table is simple but full of character in the role it fulfills for the interior. In its role within the domestic space, the table is an homage to the absurdity of the everyday.

The table is 100% designed and manufactured in Berlin
